

**Rokka Stoppa** is a new and innovative product that provides a simple, and effective way to stop tables, equipment and furniture from rocking on all undulating surfaces.

The new innovative product is 100% Australian made, non-toxic, water resistant, fire retardant and made from closed cell foam.

The concept of the Rokka Stoppa is to provide a professional and safer approach to stabilising and balancing furniture on uneven surfaces.

The product ties to the table for safe keeping and ease of installation.

Rokka Stoppa is durable, flexible and so simple to use in both, indoor and outdoor areas.

100% Australian owned.

**Rokka Stoppa** is a new and innovative product that provides a simple, and effective way to stop tables, equipment and furniture from rocking on all undulating surfaces.

### STAR

70mm x 10mm or 5mm

Used for small sized undulations on uneven surfaces.

Insert the Star tips underneath the offending leg by pinching the tips between the leg pad and the ground.

Most effective for tiled, paved & brick surface areas.

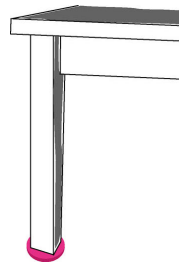

### DONUT

70mm x 10mm

Used for medium size undulations uneven surfaces.

Insert the Donut underneath the offending leg and the ground.

Most effective for timber, paved, & brick surface areas.

### PEANUT

75mm x 20mm

Used for extreme uneven surfaces.

Insert the Peanut side on, underneath the offending leg, away from the pad, towards the table pillar.

Most effective on sandstone and grass surface areas.
